

Who we are

East West Corporation Limited, is a privately owned business entity in Hong Kong, with offices in China and South America. With the core business being sourcing, design and development of consumer products, our business model is based on providing a complete set of services, which include and are not limited to distribution, shipping, financing.

We are embarking on a strong base in some countries in South America and aim to deliver a high standard of service to our clients in these regions.

Established since 1968, EWCL employs a small group of staff in their Hong Kong office with customer representatives in different countries.

A trading company, exporter, importer – some of the various names related to the trading business with China being at its core, we consider EWCL as an “integrated service provider” for consumer goods trade – with more product ranges being constantly added to expand our business and markets.
